# Pengenalan pada Mendeley

# Apa itu Mendeley?

- Mendeley membantu anda dalam menyederhanakan pekerjaan penelitian anda agar lebih focus dalam mencapai tujuan.
- Fungsi Mendeley yaitu menyimpan, mengatur, mencari serta mensitasi semua dokumen literatur anda dalam satu tempat

Mendeley dapat  
menyimpan banyak waktu  
anda

Add papers directly from your browser with a

The screenshot shows the Mendeley search page in a browser. The browser's address bar displays 'https://www.mendeley.com/search/'. The page features a search bar with the placeholder text 'Search for articles...' and a blue 'Search' button. Below the search bar, there are suggested search terms: 'COVID-19', 'Bioenergy', 'Obesity', and 'Intrinsic Motivation'. A prominent banner encourages users to 'Try the desktop app to manage your library' with a link to 'Download Mendeley Reference Manager'. At the bottom of the page, there is a navigation menu with four columns: 'Products' (including Reference Management, Datasets, Careers, and Premium Packages), 'Support' (including Help Guides, Citation Guides, Support Center, and Release Notes), 'About Us' (including About Us, Work at Mendeley, Contact Us, and Accessibility), and 'Downloads' (including Reference Manager, Web Importer, and Citation Plug-in). A footer banner states 'Mendeley Supports Responsible Sharing' with a link to 'Learn how you can share'.

# Menambahkan Referensi

# Cara Menambahkan Referensi di Mendeley

Berasal dari  
Library

Literatur PDF  
yang akan di  
impor

Membuat  
referensi  
manual

Impor konten  
berasal dari  
web

## Cara Menambahkan Referensi di Mendeley

### Impor Referensi

- Impor library yang berasal dari referensi manager lainnya dapat dilakukan dengan mudah

### Geser dan Letakkan PDF

- Mendeley akan otomatis melakukan ekstraksi metadata dari PDF dan membuat entri library

## Cara Menambahkan Referensi di Mendeley

### Pembuatan referensi manual

- Gunakan opsi manual untuk membuat entri apabila tidak memiliki file dokumen PDF yang ingin dibuat

### Impor dari Web

- Impor referensi dari web secara langsung kedalam library dengan ekstensi browser

### Description

Mendeley Web Importer detects article identifiers on the page you are viewing and automatically retrieves metadata and PDF full texts (where available) for you to add to your library. You just need to be viewing an article or a list of references in the browser and click on the Mendeley Web Importer extension icon in the toolbar.

You'll need a Mendeley account to save, read and cite the articles you import. To sign up and receive 2GB free storage space, visit ...

 Home care services  
 Drug resistance

### ABSTRACT

**Background and aims:** Tuberculosis (TB) still continues to be endemic in various regions of the world, including in India and needs surveillance, clinical assessment, testing, contact tracing, confirmation of diagnosis with supervised or in-supervised treatment regimens for an effective eradication. We assess the challenges due to COVID-19 pandemic on management of Tuberculosis and current strategies adopted to mitigate them.

**Methods:** We carried out a comprehensive review of the literature using suitable keywords such as 'COVID-19', 'Pandemics', 'Tuberculosis' and 'India' on the search engines of PubMed, Scopus, Google Scholar and Research Gate in the month of May 2020 during the current COVID-19 pandemic to assess the impact of COVID-19 on management of Tuberculosis.

**Results:** We found considerable disruption in Tuberculosis service provisions both in the primary care and hospital settings. Lockdown, social distancing, isolation strategies and public health guidelines to prevent viral transmission impacted the delivery of all aspects of Tuberculosis care.

**Conclusions:** COVID-19 pandemic has had a significant impact in the delivery of various tuberculosis prevention, surveillance, and treatment programmes. Lockdown and public health guidelines have resulted in tough challenges in traditional management of tuberculosis and has required reconfiguration of methods to support patients including wider use of remote consultations.

### 1. Introduction

The COVID-19 pandemic due to novel coronavirus SARS-CoV-2 is predominantly a respiratory illness and ranges from a common cold to more severe disease including pneumonia [1,2]. The mode of transmission is person-to-person contact [3].

of nearly 0.44 million people in India [5]. One third of the global drug-resistant TB cases are in India, according to the World Health Organisation (WHO) [6].

COVID-19 pandemic has presented us with a global health crisis. However, national programmes to combat TB need to be actively reconfigured to support patients including wider use of remote consultations.
